Payload is 2.4 tonnes. Tail-lift weight max. 750kg

TAIL-LIFT DELIVERY CONSIDERATIONS

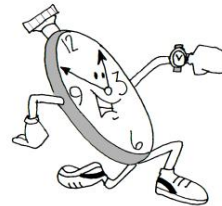

What we can do...

How you can help...

Maximum slope

We can only use a tail-lift on level ground, not slopes.

When?

Make sure you pick a delivery date you can be present for. Otherwise our driver will have a wasted journey and you could incur additional charges.

Unloading Facility

Deliveries will be made using a manual pump truck.

Note: This is a kerb side delivery service.

Where are we going?

When you place your order, please tell us about any access restrictions so we have the right vehicle and equipment. This saves us a wasted journey and you additional charges.

Road access restrictions

Make sure we know about any road restrictions: height, weight, no parking, narrow lanes, or pedestrian crossings or anything else.

Who is signing?

A responsible adult, 18 or over, must be on site to sign for the delivery. If there isn't anyone to sign for it, you may have a later delivery or additional charges.

Ground Conditions

Deliveries can only be made on hard, even ground. We cannot pull over gravel, loose stones, cobbles or grass.

We cannot pull pump trucks over very high kerbs.

Pallet Force operates the following rules in relation to tail lift deliveries:

- We offer a kerbside delivery service only.
- The driver is not authorised to carry goods up or down steps or through a property.
- The delivery driver will be able to wheel the pallet with a pallet truck as far as possible, but is not able to re move goods from the pallet or take the pallet away.
- Whilst our drivers are instructed not to take their vehicle off the roadway to make deliveries, our driver will make every effort with your delivery to meet your requirements.
- If you require the driver to leave the roadway, it will be at your own risk.
- All freight that is due for delivery on a tail lift vehicle must be secured to a pallet that is accessible from all four sides and have sufficient opening for a pump truck.

Please Note:

- All deliveries are made in accordance with the RHA conditions of carriage.
- Once the proof of delivery (POD) has been signed by the customer or on behalf of the customer, no subsequent claims can be made against the delivering company as the POD is signed acceptance that the order is complete and intact.
- **Cancellation charge:** If your order is cancelled within 72 hours of the scheduled delivery by Pallet Force, then a cancellation fee to the value of the original shipping charge, and the cost to return the products back to us will apply.
- **Failed deliveries:** If a delivery is not achievable through either the fault of the customer or site access issues, the customer is liable for the shipping charge associated with attempting to deliver the products and returning the products back to the Mick George Group – equivalent to that charged in the original order.
