

## Policy Statement

# Environment

Mick George Ltd is committed to being socially responsible in all aspects of its business.

We will conduct our business with due care and respect for the environment, natural resources and all interested parties and maintain open relations with all regulatory authorities.

We regard the promotion of sustainable environmental practices as a mutual objective for all interested parties and are fully committed to providing sufficient resource to ensure that we comply with, and where possible exceed, all statutory and regulatory requirements.

**Therefore, we will operate under the control and principles of ISO14001:2004 but would be aligning the organisation to transition over to the annex SL approach and to ISO14001:2015 by October 2018.**

We will identify the aspects of our operations that impact on the environment and take reasonably practicable measures to prevent or diminish those impacts.

We are committed to the sustainable use of resources through the recovery and reuse of secondary aggregates and recycling of collected materials to reduce the amount of waste being sent to landfill.

We will recycle our process water where possible to limit our use of groundwater and surface water and use ground or surface water where possible to minimise demand on potable water.

We will mitigate our impact on climate change through the careful selection of energy efficient plant and vehicles, driver training and monitoring of fuel usage and we will monitor water and electricity usage.

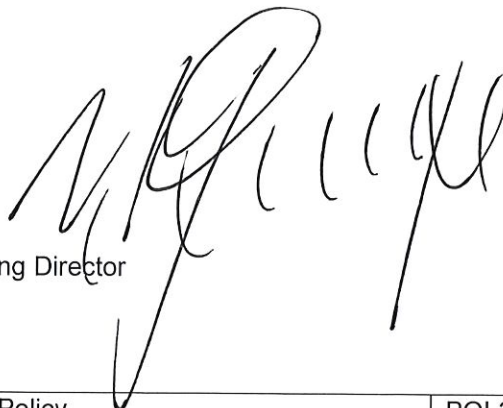

We will obtain and comply with the requirements of our Environmental Permits to demonstrate that sufficient design and operational measures are in place to mitigate the environmental impact of our activities on land, air and water.

We will continue to improve our environmental performance through top management review of this policy, setting and reviewing objectives that align with this policy, effective communication, staff training and adoption of best available techniques.

This policy will be made available to our employees, those working for or on behalf of MGL and provided on request to any other interested parties. The policy will be reviewed annually, subject to changes in company procedure or legislation.

Signed:

Managing Director
